

VD 230 NE God speaks to the world (part 3) - 2020-04-12

Dear viewers,

In this video I'd like to talk again about the messages of God the Father, which He already gave me in November and December 2016, that is almost 4 years ago. Already from history we know that God has the habit of announcing future events early. So no one can complain that he didn't know anything.

The messages that I received from Him in the winter of 2016 speak a clear language and their meaning becomes very clear from today's perspective. I have published them already at that time on my homepage. You'll find the link in the info box. *show*

From these words of God the Father reveals a main reason why He now sends us the announced trials. This topic has been largely hushed up for years because it is uncomfortable for many. It's about the sin of abortion.

Many sins are committed on earth every day. One of the most serious of these crimes is the murder of unborn children, but also that of those already born, which unfortunately also happens frequently. Violence in the family is still traditionally considered a private matter. The domestic environment is one of the most dangerous places for the little ones in need of protection and help.

It's a grave affront to the Creator that we humans kill the children He created and deny them the life that the Almighty wanted to give them. This is an encroachment upon the prerogative of the Most High, who grants life to everyone but also takes life away.

Millions of children have died in this terrible way in the last decades - more than in the wars that have been waged in this world. The Almighty is not only sad about this, but deeply angry.

In 2016, He said to me, "The misery will take its course." - And indeed, we can currently observe how the corona pandemic is spreading daily.

Let us use the time we now spend at home, not to watch TV or for our hobbies, but for reflection, prayer, penance and conversion.

The situation is more serious than many would like to admit. On 13th March 2020, the Eternal therefore said to *Vassula*, "Without repentance and truthfulness in your prayers, this evil will last longer than you think!"

There is a lot of talk at present about measures that need to be taken against the virus. The trusting, humble and fervent prayer is an essential main measure, which has hardly been mentioned so far, because man still thinks he can control everything and therefore doesn't need the help of God.

This is a presumption that we as creatures are not entitled to.
