

## **VD 469 OL Open letter to Ms Vassula Rydén, 26.10.2027 , 28.05.2022**

Dear viewers and readers,

with this video I start a new playlist on my *YouTube* channel. This is entitled "Open Letters" and contains messages to people whom I could not reach by post, telephone or email. The only option left to me is the open letter.

From now on, I will use the form of the open letter for messages that are of great importance and may also be of public interest. These letters contain no private details.

In the following I am going to read a letter that I wrote on October 26, 2017 and published on my homepage at the time. You can find the German and French versions in the link I provided in the info box below. \*zeigen\*

Dear *Mrs Rydén*,  
Dear sister in Christ,

already long ago I've been trying to get in touch with you via your employees and send you a message. Unfortunately, I don't know if this has succeeded. Therefore, only this possibility (an open letter) remains to me.

For many years I have lived an unobtrusive life until God entered my life in 1997. It was only in the course of time that I understood that He needed me for His work and selected me as a contributor.

I was born the same year as your elder son and so I belong to the next generation who is allowed to participate in the spread of the faith.

Only a few years ago I noticed that there are some parallels between the messages you have received and those I have received.

There are similarities in particular in the following areas:

- the Reunification of the Churches
- the early Coming of the Messiah and
- the beginning of the era of justice

In this way, God confirms the meaning and the truth of His statements twofold. It is, so to speak, a double authentication. This shows that His concerns are very important to Him. Therefore, we too must take them very seriously.

After God has gradually told me more and more clearly what He expects from me (He therefor always uses quotations from the Bible), I decided to go public and thus fulfill my official mission - with God's help.

While you have many years of experience, I am still at the very beginning of my activity. I wish you in this way all the best for your work and God's blessings!

Yours sincerely, Andrea
